Scott: just to follow up. On 2/10/12, I sent you a message regarding high methane values we found in two wells, where the well water was being used in the home. In this data package there is another home that has high methane of 52,000 ug/l -(HW-12), but the resident is being provided alternate water by Cabot. There is another well for future releases that also has a high methane value 77,000 and 62,000 (duplicate), and is also being provided alternate water by Cabot. Let me know if you have any questions.

Ron

Steve,
Here's the spreadsheet for the 1st week's data (11 homes).
Rich

Steve,
Scott Perry asked that I contact you to give you the EPA data. I plan to prepare an excel spreadsheet and can send you a version shortly. Please take a look at it and get back to me if you have any additional needs.
